

City of Amsterdam

Coach policy

Amsterdam introduces new rules for coaches as from 1 January 2024. The City Council wants to enjoy the benefits coaches bring, while tackling the nuisance they can cause. One way we do this is by banning heavy coaches (those weighing more than 7.5 tonnes) within the S100 ring - with a few exceptions.

From when?

A new coach policy is valid from **1 January 2024**.

What has changed?

- As from 2024, coaches weighing **more than 7.5 tonnes** are banned from roads within the S100 ring road, with the exception of the corridor Weesperstraat - Valkenburgerstraat - Kattenburgerstraat.
- **Exemption** permits are only issued for coaches carrying primary school pupils, people with disabilities, elderly and artists, and provided that they are travelling to or from educational, cultural or art institutions. As of October 2023 exemptions can be applied for through amsterdam.nl/touringcar.

Drop-off, pick-up and parking

Coaches are directed to parking areas and drop-off and pick-up facilities close to the borders of the city, preferably in the proximity of public transport. For available locations please check [Tourbuzz.nl](https://www.tourbuzz.nl).
